FTA Decision No. 13 of 2026 (issued 22 July 2026) · Article 54(bis), UAE VAT Law · Effective **1 October 2026**

From 1 October 2026, VAT-registered businesses must verify each supplier and each supply before deducting input tax. If a supply is connected to tax evasion and the business knew or should have known, the FTA may deny the input tax. Items marked REQUIRED come from the Decision; items marked RECOMMENDED are supporting evidence we advise keeping.

Thresholds, enhanced checks and your policy

Which supplies this applies to (Art. 6)

Supplies below **AED 10,000** (excluding VAT) can be left out of these checks, unless total supplies from that supplier exceed **AED 100,000** in the previous 12 months or are expected to in the next 12 months. Then every supply from that supplier is in scope.

Above **AED 375,000** from one supplier (previous or next 12 months), the enhanced bank and reputation checks also apply.

ENHANCED: SUPPLIER ABOVE AED 375,000 IN 12 MONTHS (ART. 3.4)

- ☐ **Bank confirmation**: a written confirmation from an authorised UAE bank that the supplier holds a bank account, with no reservations or conditions. It need not be addressed to you REQUIRED
  A letter on the supplier's own letterhead is not enough.
- ☐ **Reputation review**: clients' recommendations where available, and public reviews and media from reliable sources, consistent with the supplier's size and with no signs of tax evasion; dated and saved REQUIRED

YOUR VERIFICATION POLICY (ART. 5.3, 5.4)

- ☐ **Written policy** naming the people who implement, review and supervise the checks, with their powers and responsibilities REQUIRED
- ☐ **Records**: document each verification step and keep the supporting documents where the FTA can review them REQUIRED
